A Democratic Caucus Decides It Inexpedient-A Joint Resolution Presented in the House to Limit the Presidency to

WASHINGTON, Dec. 7 .- At the close of yesterday's Democratic caucus Senator Faulkner, the secretary, gave out the following: The Democratic caucus directed the "steering committee" to prepare an order of business which would present for the consideration of the senate the following subjects of legislation:

A bankruptcy bill; a bill for the con-struction of the Nicaragua canal; a currency bill; bills for the admission of Arizona and New Mexico; a bill involving the interests of the Indian Territory; for the consideration of the joint resolution of the house of representatives for the election of United States senators by the people, and such other measures, including the appro-priation bills, as the "steering committee" may deem important.

That in their report to the caucus the "steering committee" shall provide the order in which the above subjects of legislation shall be considered.

The caucus was in session from 2 o'clock until 4:30 p. m.,and almost the entire time was devoted to the discussion of the first proposition of Senator Daniel instructing the committee on rules to bring in an amendment for a closure and the speeches were at times very spirited. Senators Vest, Vilas, Berry and George made speeches favorable to the proposition while Sena-tors Gorman, Morgan. Palmer, Harris. Pugh and others opposed it with vigor and warmth.

The protest against the proposed change was so general that when a vote was taken no one considered it necessary to ask for the aves and nays.

With the closure provision defeated the friends of the terrif bill gave up the tight, considering it unnecessary to make any attempt to revive their consideration is view of the opposition of a majority of the Repullicans, and concess of the last that any determined opposition under the preent rul - would misure their defeat Hence it is that the so lills do not appear in the official list of more to be presented for the consideration of the senate.

Socialists Snub Emperor William.

BERLIN, Dec. 7 .- The first sitting of the reichstag in its new building was held yesterday. President von Levetzow delivered a brief address, concluding his remarks with a call for cheers for the emperor. All the members present with the exception of the Socialists responded, rising from their seats and cheering heartily. The other members were greatly excited, howling and shouting at the Socialists to get out These cries, however, had no effect upon the Social Democratic members, who remained seated. ANOTHER INSURANCE SWINDLER This Man Charged with Murder to Secure

the Money. Tresos, Ariz., Dec. 7.—Among the Huachucas mountains, at Salvation Army camp, about forty miles from here, officers arrested John W. Hillman, a man who

has been wanted for several years. The man arrested, however, denies that he is Hillman. In 1875 Hillman and two companions, one of them resembling him very closely, went to the Buffalo mountains of Texas to hunt. Hillman and one companion returned, but the man who bore the striking resemblance to him had disappeared. Hillman carried an insurance on his life of \$-0.000, and while in the mountains concrived a scheme to get the insurance, and killed his companion. He took the name of the man whom he had murdered, and said that Hillman had been accidentally shot dead and buried in the mountains,

Mrs. Hillman made claim to the life insurance companies in which her husband had been insured. The companies became suspicious; the remains of the man whom Hillman had murdered were exhumed, and it was then discovered that they were not those of the insured man. Mrs. Hillman instituted legal proceedings in To peka, Kan., to recover the insurance, and the case was carried from one court to another until she secured judgment for the principal, interest and attorney's fees in the supreme court of the United States. According to the order of the court the judgment must be satisfied by the end of

this veger, During all this time the insurance companies have kept detectives on the trail of Hillman. He was followed to Australia and other foreign countries, and a reward of \$15,000 was offered for his apprehension, dead or alive.

FRANKLIN, Ky., Dec. 7.—Urgent telegrams from I., B. Herndon, of this place. show that he is the man arrested in Arizona for the Hillman crimes. Dr. D. D. Neely, a relation of his, left for Tombstone to identify Herndon and help him out of his trouble. His relatives here, from what they know of the case, do not believe him

Swindled the Farmers.

PITTSBURG, Dec. 7.-A fine looking man of about 50 years, styling himself Frank Johnson, hailing from Chicago, came to this city six or eight weeks ago and opened a commission house on Liberty street under the firm name of Kirkpatrick & Johnson Today he is among the missing, and many creditors mourn. Johnson flooded western Pennsylvania, eastern Ohio and West Virginia with circulars offering farmers and agents commissions and salaries considerably better than other houses could afford for poultry and produce of all kinds. The house was soon doing an immense business, but Johnson, on one pretext or another, succeeded in staving off creditors. Some of the commission men on the street estimate the swindle as high as \$25,000

Congressman-elect Campbell Dead. New York, Dec. 7.-Congressman-elect Andrew J. Campbell, the Republican opponent of General Daniel E. Sickels, Tammany candidate at the last election in the Tenth district, died yesterday afternoon of Bright's disease after an illness of two days. He was a native of Newark, N. J. and 56 years old. It is probable that General Sickles will again be a candidate at the special election to fill the vacancy caused by Mr. Campbell's death.

Murdered from Ambush.

HINTINGTON, W. Va., Dec. 7.—Another assussination has been added to the long list in Lincoln county As Mrs. Theodore Arthur was walking along the highway near her home she was shot from ambush one ball penetrating her left lung. She died almost instantly. The gang of murderers who have been committing many crimes in that locality for a year past are supposed to have shot Mrs. Arthur.

An Ambassador for Peace.

CHE FOO, Dec. 7.-The Tsung-li-Yamen has decided to send a special ambassador to Tokio, fully authorized to negotiate a treaty of peace. This is the result of an intimation from United States Minister Denby that he and the United States minister to Japan have prepared the way for direct communication between China and Japan, though the nature of the preliminary negotiations are kept secret.

Two Drowned in Conesus Lake.

GENESEO, N. Y., Dec. 7-An accident occurred at Conesus lake by which two men named Campbell and McCurdy, residents of this town, lost their lives. They were accompanied by another man, John Falls, who escaped. He says they were all standing up in the boat when it suddenly sank beneath them. He hung on to the boat and floated to the shore.

THE POLICE PERQUISITES.

Further Interesting Testimony Before the Lexow Investigating Committee.

NEW YORK, Dec. 7 .- Yesterday was red letter day in the history of the Lexow committee. A new source of revenue to the police was developed. Frank W. Sanger. the theatrical manager, testified that during the sparring exhibition given by Corbett at the Madison Square Garden, Brady. Corbett's manager, drew \$250 from the box office to pay for police protection. Brady, who was placed upon the stand, after much hesitation, admitted that Sanger's testimony was correct. Later, however Mr. Brady denied that he had ever per sonally paid the money for police protec-tion. He said that Wrestler Muldoon had agreed to see that the police would not interfere with the match for 25 per cent. of the gate receipts.

The subject of the French ball was next taken up. The officers denied having paid money for police protection. Some of the former officers of the ball and some of the attaches and employes told different stories, however. The Lexow committee dipped into all the naughtiness of the French ball, and some of the country menbers of the committee seemed very much shocked at the account, given, but these statements were emphatically denied by the officials of Cercie de L Harmonie, the society which has the French balls in charge. According to their statements there was no high kicking, and the ball would compare favorably with any of the social events given by any of the fraternal benevolent or charitable organizations of New York city.

The hearing was adjourned until Tuesday next.

Killed Two, Fatally Wounded Another.

ASHLAND, My. Dec. 7.—A tragedy that will end in a triple murder occurred at Fultz Station. George Fultz. Sr., aged 60, and his son, ared 55, are dead, while John Phyills, his son-in-law, is lying with a bullet through the head. Thomas James, an all around desperado and alleged illicit whisky seller, who was charged by Fultz with the betrayal of his sister, did the shooting and escaped to the hills, where a posse is in pursuit, with prospects of an early lynching. The tragedy occurred at a church where a series of revival meetings were being held. The daughter of the murdered man, who met her lover clandestinely, is almost crazed with remorse, and may yet become insane.

Wants Protection from Ber Lover. RICHMOND, Va., Dec 7.-W. F. Mathews, a prominent business man of Lynchburg, was before the court here yesterday upon

the complaint of Mrs. Kate McFarlan. She said he was a suitor of hers who pressed his suit so violently that she feared him, and asked the court to protect her. It appeared from the evidence that Mrs. Me-Farlan and Mr. Mathews met each other last January in South Dakota, where she got a divorce from her husband and he one from his wife. Mr. Mathews admitted that he was fascinated with Mrs. McFarlan, said he had spent \$6,000 on her, and that they had lived together as man and wife. This the widow indignantly denied.

Criminal Negligence Charged.

MONTELLAL, Dec. 7. - Coroner McMahon's tury, which has been listening to a mass of expert and other testimony for several weeks in connection with the collapse of the City Passenger Railway company's building, by which three workmen were killed, reached a verdict last evening censuring Edward C. Hopkins, architect, Ant Gravel, engineer of the Dominion Bridge company, and Joseph McLaughlin, foreman of the Dominion Bridge company. Coroner McMahon at once issued warrants for the arrest of the three men.

Columbia's Sailors Charged with Theft. HALIFAX, N. S., Dec. 7.-Mail advices from Kingston, Jamaica, state that serious unpleasantness occurred on board the American warship Columbia there recently, when police officers appeared on hoard with warrants for the arrest of certain members of the Columbia's crew for stealing jewelry. CORRIGAN CRITICIZED.

Father Ducey Again Assails the New York Archbishop.

CHARGES HIM WITH PREJUDICE.

The Archbishop, Says Father Ducey, Has Been Persecuting Him for Ten Years. Why the Archbishop's Order to the Priest Was Ignored by the Latter.

New York, Dec. 7.—The controversy between Archbishop Corrigan and Rev. Father Ducey has reached that stage when another statement has been deemed expedient by the latter. Notwithstanding the Archbishop's injunction, Father Ducey continues to be a conspicuous figure at the Lexow committee investigation. Last night he gave out the following statement:

"The gentlemen of the press are very familiar with the methods that go at Madison avenue. I do not say on what corner I locate these methods. I greatly regret to be obliged to allude to Madison

RET. MGR. T. J. DUCEY. avenue methods, but when one is kept like a cathedral window, constantly on the gridiron, self pre-ervation forces one to cry out, 'We are very rotten in New York.'

"The Rev. Mr. Newey is decent enough to speak as the Rev. Mr. Newey. He is not evidently willing to act the part of a gorilla assassin. It is very painful to the American public to have the press of New York give prominence to attacks on personal character anonymously made. It is sad to think that the archbishop, who has the createst opportunity for good, in my judgment, of any ecclesiastic in the world. should need defenders. He would not need them did he act independently, fearlessly and openly.

Archbishop Corrigan has placed himself in a position of persistent persecution of me for the past ten years. Why his grace should have been so misguided, I cannot fathom. I owe nothing to the archbishop of New York, and he knows that he owes much tome. From his coming to this diocese I was kind to him in the extreme, when he was a suppliant and stranger in New York, and he knows it. As condiutor archbishop, with the right of succession, he was unknown and humble in New York. He came to my house almost every week, he rode with me in my carriages and sleighs before my devotion to humanity forced me to rid myself of these vanities.

"I was not in all particulars like the young man in the gospel—I could not say that I had kept in perfection the com mandments from my youth without spot or blemish; but I can say, however, that I have been most faithful and sacrificing as a priest, and I have never been a frequenter of disreputable places.

"The Lexow committee is seeking to know something of the character of Rosa Bell's, and her successor, Evelyn Bell's house on Thirty-sixth street. Inspector Williams and Captain Westervelt might give some ecclesiastical information as to that house to the senate committee.

"The Rev. Mr. Newey's permission to me to publish Archbishop Corrigan's letter marked 'private' seems a very shallow trap. I am not prepared to be trapped. I still affirm that the archbishop has not answered my letter of Nov. 27.'

Father Ducey's letter to the archbishop of Nov. 27, referred to above, is in part as follows:

"The grievances alleged against me are not founded on truth and fact. You know and God knows I have been the wronged person. I have never entered into any conspiracy against you or any other man. I have always fought in the open, and I always hope so to do.

"Your excellency cannot be ignorant of the fact that priests at the cathedral have, by their own letters, given evidence of evil methods. You, it is said, are not responsible for their acts, but if they have abused your confidence and imposed on your good nature why do they defautly hold on? You cannot blame me if I have reason to complain.

"I wish to be frank, and I inform you that I have letters of yours in my possession, sent by you to the New York press, requesting that it should say certain things about me. These letters, sent from your residence, are not typewritten, but in your own handwriting."

On Monday, Dec. 1, Father Duccy sent a letter to the archbishop which concludes "You have given me no reason why I

should not attend the sessions of the Lexow committee on Monday, and, as I said to you in my letter of the 27th, I have always fought in the open day and always hope to do so, therefore I think it prudent, respectful and wise that I should inform you that I am going to the Lexow investigation on Monday.

THE GING MURDER, MYSTERY. Marry T. Hayward Under Arrest, Charged

with the Crime.

MINNEAPOLIS, Dec. 7.—The Catherine Ging murder mystery is still unsolved. A torn note found in her waste basket has been partially fitted together, on which the words "I will not marry you" are discernlble. These words lend confirmation to the theory that the deed was one of passion or jealousy rather than of robbery, and that the money on her person at the time of the murder, estimated at fully \$10,000, was taken as an afterthought to obscure the motive for the deed.

The police are devoting themselves steadily to the task of finding some one who saw the mysterious stranger with Miss Ging within a week of the murder. The stranger has come to be known as "the man with the iron gray mustache." Several new traces of him have been found. The night clerk at the Metropolitan cafe, St. Paul, remembers Miss Ging as having visited that cafe in company with a gentleman of that description about three weeks ago. They had support ogether and something to drink. They were quite merry, and the time slipped away so rapidly that before they knew it the last inter-urban (lectric car for Minneapolis had left, and they were obliged to hire a cab and drive the nine miles. The entire acquaintance of Miss Ging is being scrutinized for some hint.

Harry T. Hayward, the young business man whose relations with Catherine Ging have been investigated from every conceivable standpoint since Monday night, was last evening arrested on a charge of murder in the first degree. His brother, A. A. Hayward, it is said, will also be arrested. The theory on which the police are working is chiefly of conspiracy to obtain the insurance.

May be Prosecuted Criminally.

WASHINGTON, Dec. 7. — Proceedings in the criminal court of Washington may be a result of the Thanksgiving Day football game between the Columbia Athletic club and Georgetown university, in which Quarterback Bahen, of the university, received such spinal injuries that he lies paralyzed and at the point of death. Several persons who witnessed the episode have urged the college faculty to take action against certain Columbia players, and are volunteering to appear as witnesses. They assert that Bahen was evidently assaulted with the intention of injuring him and putting him out of the game. Some say that the Columbia men went into the g une with the deliberate intention of compelling the best players of the opposing team to retire early.

Kidnaped by Her Father.

TUNKHANNOCK, Pa., Dec. 7.—Goldie Worden, an 8-year-old child, was kidnaped yesterday as she left the school house. A closed carriage containing a man and woman stopped nearby, and the man asked the child if she knew him. She replied that she did not, whereupon he suddenly threw his arms about her, tossed her into the carriage and drove swiftly away. The little one's screams attracted the attention of policemen, who started in pursuit, but the abductors have not yet been captured. The supposition is that the man is the girl's father. Her mother died when she was an infant and the father being a dissipated man the courts gave the child into the enstedy of her grandparents. The ather has repeatedly attempted to entice

THREE TRAIN ROBBERS.

They Make a Big Haul on the Texas and Pacific Road.

A HUNDRED THOUSAND DOLLARS

Said to Have Been Secured by the Men. Who Carried Off the Iron Safe of the Express Messenger-The Passengers Were Not Molested.

FORT WORTH, Tex., Dec. 7.-The eastbound Texas and Pacific passenger train was held up at a trestle seven miles west of here last evening. The train was stopped just as the engine and express car had crossed, the passenger coaches coming to a standstill on the trestle, where the passenger sengers had no opportunity of getting of a if they were so inclined, which they were not, but only busied themselves in concealing their valuables. Several shots were fired from the front end of the train and the passengers were warned to keep their heads in the windows.

The train was detained ten or fifteen minutes, during which time those wh. caught a glimpse of the party on the other side of the trestle saw three masked men with guns marching the engineer and trainmen in and out of the baggage car. When they finished their work the robbers made the engineer back the train over the trestle, and while it was crossing disappeared in a thick forest.

In one respect the robbery was remarkable, and sets a precedent. The iron safe of the messenger was thrown from the ca: and carried off. It is learned from authoritative sources that upwards of \$100,000 was recured. The robbery is one of the most daring on record.

The train was stopped at the water tank; one man boarded it and covered the engineer and tireman, while the other two looted the express car. Mr. J. B. Berry, of Dallas, who was a passenger on the train,

"The whole procedure did not occupy twelve minutes. A quarter of a mile east of Benbrook three masked men held up the train. I do not know how they did it. The first thing I knew, the engineer threw the air brake. After the train stopped I heard a shot and in about five minutes I heard another. Then I heard that the robbers broke into the empress car, but nothing could be learned from the officials as to the extent of the robbery. The robbery was so quietly conducted that the passengers were not badly awed."

COMMERCIAL VALUE OF SERMONS.

1 Creat Divine of London Makes a De-

parture and Stirs Up a Hornets' Nest. The Roy, Dr. Joseph Parker, pastor of the City Temple, has been expressing high indignation because some newspaters printed extracts from a sermon prea her of the gespel of Christ even de-

witt out his permission. The irate clar d, "The man who reports a sermon will out the preacher's permission is a thus," He explains frankly that the proceder may desire to sell the sermon or , reach it elsewhere on the next Sun-"A Dick Turpm of a reporter" precents this. This strong language provokes many

unland remarks about the gentleman who, since Spurgeon's death, has been considered by many as London's greatest pulpit orator. It really does seem that the soul saving business, like all other things English, has got down to a strictly commercial basis. Some rather awk yard extracts from holy writ, including quotations from the lips of the 1 reacher of the sermon on the mount, an authority usually held in quite high 20 spect at the City Temple, have been brought to Dr. Parker's attention this week by the London press. Some, even of the parishioners of this gentle follower of Jesus, have been disturbed by his words. Thus one writes to The Times:

"Dr. Parker's letter causes me some qualms of conscience. A few weeks back I was able to pour consolation into the heart of an old friend, who was in great mental affliction and bodily weakness, by reciting to him some singularly beautiful sentences I had heard from the City Temple pulpit. I confess it escaped me that I ought to have charged my friend 3s. 6d. for the use of the preacher's balm for wounded souls and transmitted the money to the owner of such mental medicine. T think Dr. Parker will see that, even in these ungodly times, the public are not yet ready for viewing what they are told is the house of God as a shop and the proclamation of the everlasting gospel as a trafficking in marketable goods. Doubtless Dr. Parker's letter will help the people to see

him and his work in the right light." Others put the pertinent inquiry whether Dr. Parker is greater than his Master. It is recalled by the newspaper men that in his earlier days he not only welcomed the presence of reporters, but used to beg editors to send them, and when none came he was not above summarizing his sermons himself and sending reports to the newspaper offices. No man, in fact, knows better than Dr. Parker how to utilize the newspaper for gratuitously advertising himself. When, a few years ago, he aspired to fill Henry Ward Beecher's pulpit, he took immense pains to obtain the assistance of all the agencies engaged in the business of cabling news to the American press. DRIVEN TO CANNIBALISM.

Eskimos, Surprised by the Winter That

Foiled Peary, Eat Each Other. Intelligence is given by a whaling captain to a Dundee paper of a most grewsome discovery in the arctic regions. In the beginning of August, while the Dundee whalers Aurora, Balaena and Esquimaux were in Prince Regent's inlet searching for white whales they landed a party in Elvin bay. The men on landing found near the water's edge a ring of dead bodies of Eskimos,

who had evidently died of starvation. Before death the members of the party had been driven to the awful extremity of cannibalism. Some of the bodies were untouched, others were partially eaten, and cleau picked bones lay near. One body was decapitated, and the head was found some distance away. The remains were in a comparatively good

state of preservation. It is supposed that the party had been surprised by winter and had failed to get away from a district which is destitute of game and very barren. The crew of the Balaena bring home many relics of the unfortunate Eskimos.

The Metamorphoses of a Bust.

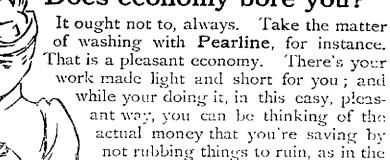

English sculptors are not half up to date, perhaps because our fewer political changes have not sharpened their wits. The Parisians are just now laughing at the vici-situdes of a bust of Louis XIV over the colonnade on the east side of the Louvre. When Perrault creeted the colonnade, the bust was an exact likeness of the "Roi Soleil," but under the first empire the official sculptor chipped off the flowing wig and pared the nose down to the Napoleonic proportions. When the Bourbons came back, the wig was replaced and the necessary hump put on the nose, but both were removed during the hundred days. But after Waterloo the peruke and the aquiline nose were restored, and the troubled bust had rest, though now that the subject has been raised possibly M. Casımır-Perier may wish to add his mustache to the long suffering work of art -Building News.

Advice From a Flippant Phrenologist. The fall of Caprivi was predicted at least by one observer. This is Mr. Donovan, a phrenologist who had studied the young emperor's head and found it sadly lacking in "concentrativeness." A man with such a head must have changes, and so Mr. Donovan predicted a year ago that Caprivi would speedily go the way of Bismarck. The phrenologist's advice to Prince Hohenlohe is as follows: "In order to keep the emperor out of mischief his love of travel should be encouraged as much as possible. He should go to Chicago next year and then in turn be persuaded to visit Asia, Africa, Australasia and South America. By this means he will let off his desire for change and restlessness in a harmlese way. "--- Westminster Gazette.

FRAUDS EXPOSED.

Some of the Tricks of So Called Mind Readers Solved by Dr. Hyslop.

Dr. Hyslop of Columbia college, says a writer in the Boston Herald, has helped to bring down several so called mind readers who have visited New York. The Taylors, a man and woman who gave exhibitious in New York two years ago and convinced nearly every one who saw them of the genuineness of their manifestations, gave a private seance for the benefit of this Columbia professor and some of his scientific friends. They found hidden objects, they picked out cards that had been selected from a pack and then shuffled in again, and all the other familiar tricks, with more than common success, one of them staying in the room and being in the secret, and the other coming in after all was ready and supposedly read

ing the partner's mind. All went well until Dr. Hyslop and a confederate took the Taylors aback by announcing that they could do the same things. They had found that the words used by one of the "mind readers" in calling the other into the room were what gave the desired information. It was discovered that by skillful arrangement of not more than six words a surprising amount of information could be conveyed. This is the first time the fact that the Taylors were not genuine mind readers has been made public.

Another "mind reader" exposed by Dr. Hyslop and coinvestigators was Guibal, who gave exhibitions in New York recently and astonished hundreds of persons, most of whom suppose to this day that his tricks were bona fide psychic phenomena. Guibal's assistant was a woman called Greville, who sat on the stage, and who, so far as could be seen for a long time, gave him absolately no sign of what was in her mind. Guibal apparently read that mind as if it were an open book. The whole thing was found to be a trick, and the explanation is now in the archives of the Society for Fsychical Research. It is believed that Guibal and Greville were the same persons whose performances had amazed London not long before. The woman breathed very heavily, and the code of signals lay in the manner of her breathing, messages being conveyed by long and short breaths, something like the dots and dashes in the Morse telegraph code.

CURIOUS TEA PARTIES.

The Odd and Eternal Little Functions That

Are Held In Pearl Street. There is an everlasting tea party in function on Pearl street, near Hanover square. An aroma of freshly steeped leaves fills the air all the week, and following your nose to the cause you will find it pointing down to little gloomy basements where teacups are perpetually spread. They are all plain white cups, and there is no display of tablecloth or dainty cakes-just plain tea. And the methods of the tea parties that foregather there are just as plain and

unceremonious.

They generally consist of old gentlemen of severely respectable appearance, and when these old parties feel like it. sometimes putting it in their months

and chewing it. But, strangest thing of all, they never drink their tea after all the trouble they have taken with it. In fact, they seem to take a strong dislike to the infusion as soon as it is before them. Sometimes they sniff at it, and if ever they take it into their mouths they do but roll it around and spit it out. Moreover, they will do the same things with half a dozen cups in succession until Dr. Johnson-unless he knew the reason-would have cried out at the waste of the cheering but uninebriating beverage.

Meanwhile other gentlemen sit also at the table and anxiously watch all this sniffing and spitting, for these are the tea tasters and samplers, and this is where tea is bought and sold not by the pound, but by the carload.—New York Sun.

Lucky and Unlucky Vegetables.

Peas and beans are very important plants in folklore, and there are many superstitions connected with them. Peas were favorite instruments for divination. A pea pod with nine peas was equal to a wishbone when placed above the door. In Northamptonshire it is accounted generally lucky to find nine peas in a pod, or kid. In Mecklenburg, Germany, it is believed that peas must be sown early on Wednesday or Thursday, or the birds will carry them off. If they are fed to hens, it is said that fowls will lay well. They must not, however, be eaten during the Christmas holidays nor until after Twelfth day.

Beans were mysterious in antiquity. Pliny says they contain the souls of the dead. The Romans used them in religious ceremonies. They were used in Greece as ballots, and Pythagoras desired his disciples not to "love beans"that is, not interfere with politics. Our phrase, "You don't know beans," probably means you are no politician. Ovid prescribes beans to expel evil spirits .-Philadelphia Press.

He was carried to the waiting roota of the depot and Dr. J. B. Pellet, of Hamburg, was telegraphed for and arrived in about an hour, when he learned that Dr. Vangasbeck had performed the operation. The arm was amputated about half way between the elbow and the shoulder. The doctor was thirty-five minutes in performing the operation, which took place in the waiting room tof the depot. He was taken to his father's house on Harrison street.

### VALUABLE WOODS.

Many of the Finest Kinds In Existence Plentiful, but Almost Unknown.

Many of the finest woods in existence are yet unknown or only slightly known to the manufacturers of wood in the civilized world. The woods of Central and South America are perhaps the most remarkable as well as the best known. In the yet untouched forests of this continent are many woods far finer than any of those now in use. These woods rauge from pure white to jet black in color, and many of them are most beautifully marked and veined. Some of them are so hard that they turn the edges of axes, chisels and other tools, while the band saw cuts them only slowly.

In the Columbian exposition there were many displays of little known woods, and the finest of them were those from Argentine Republic, Brazil and other South American countries. Some of these southern woods yielded to the teeth of the band saw not the ordinary sawdust, but fine powder, fine as the finest flour, so hard were the woods. Some of them burned but slowly. Others possess qualities that keep them free from insects. Some of them seem to be practically indestructible by air and

All along the eastern slopes of the Andes, up to the snow line on those great elevations, throughout all the great river valleys and in some of the wide areas of level country in South America are great forests of fine woods that are specially fit for the finest cabinet and furniture work, and also for shipbuilding, carpentry and other industrial arts in which wood is the raw material. These great forests are now an unknown quantity in the commercial world, but they will come rapidly into the knowledge of men and into industrial use when once the railroad has reached them.

Before many years, it is safe to predier, the South American and Central American republics will be threaded by railroads, and then those wonderful woods will be drawn upon to supply the demand for new and fine woods in all civilized countries.—Lumber World.

## Overheard In the Restaurant.

She-I went to see a beautiful play while we were in New York. He-What was it?

She-Well, I can't remember the name exactly. It sounded like "Dr. Deppety. '

He-Who took the leading character? She-A man of the name of Willard, Francis Willard. Oh, he's just elegant! Magnificent! He doesn't speak very plainly, and he can't sing a little bit; but, oh, he's just perfectly grand.

He—Was it a play or an opera? She—Oh, something of that sort! I had a quarrel with Herbert about you that night and didn't notice much.

He—Why did you quarrel about me? She-Well, I told him of our engagement that night before we started for the theater and then asked him if be still wanted to take me out, and he laughed and said, "Certainly, I would just as soon take an engaged girl to an entertainment as any kind of a girl," horrid thing!

He-Why was he horrid?

She-I just revenged myself by sitting and thinking of you all the evening. Oh, say, those are actors sitting at that table over there.

He (suspiciously)—How do you know? She-Why, because they keep looking around to see if people are watching them. Actors always do that to advertise themselves, you know.

And the waiter brought the checks.-Boston Journal.

### Hardiness of the Crape Myrtle.

Philadelphia is about as far north as the crape myrtle proves hardy. Though killed to the ground, it will push up and flower like a herbaceous plant. Possibly it would give an attraction to gardens, in this herbaceous way, much farther north than Philadelphia. Several correspondents write that it is not always killed down even so far north as Philadelphia. One at Chestnut Hill, a part of Philadelphia, instances a specimen, 5 to 6 feet high, which must have passed several wintesr unharmed. - Meehan's Monthly.

### Act In the Present.

Don't keep alabaster boxes of love and sympathy to break over coffins. Living is none too sweet at best, and flowers on the coffin east no backward fragrance.

What do the dead care for the tender token, The love, the praise, the floral offering? But living, palpitating hearts are broken For the want of just these things.

-Selected.

Alexander the Great, about B. C. 400, made an attempt to introduce many Asiatic plants into Europe. Rice was among the number, but the Greeks did not take kindly to its cultivation, preferring to import it from India and Egypt.

Philip I of France fell out with the queen, turned her out of doors and married the wife of a nobleman, giving the unique reason, "I like her better than I do my wife and can provide for her better than her husband can."

MR. BEAKES'S UNDER SHERIFF

The appointment of Robert J. Hock as Under Sheriff is a very bitter pill for Orange county Republicans to swallow. The present generation of voters cannot remember a time when two or three members of the Hock family were not fattening at the pub-He crib, and they're tired of trying to satisfy their hunger and think It time to give some else a chance.

The nomination of Adam W. Beakes for Sheriff made Middletown Republicens wild with joy, not because they cared anything for Mr. Beakes, but because his nomination kno ked out Selah Strong, who made no secret that Bob Hock was to be the tail to his kite if he won the prize. The writer well remembers the remark made by a prominent Republican at the County Convention, just after Mr. Beakes had been nominated: "That's the last of the Hocks in county politics,"—but the prominent Republican aforesaid did not reckon on the cat-like facility of the Hocks, no matter how high they may have been kicked, to always land on their

The story current in political circles as to the deals which led up to the appointment of Mr. Hoes is an interesting one. We give it just as our Republican friends tell it. When Mr. Beakes promised to let Boss Odell name the Under Sheriff he took it for granted that Selah E, Strong would be the man. Mr. Strong seems to have had an idea that he was to be taken care of, for he was most permiciously active in the campaign and rolled up a big vote in Blooming Grove for Mr. Beakes. Mr. Oiell undoubtedly felt very friendly to Mr. Strong, and would probably have named him for the appointment if his own nomination for Congress had not made him very anxious for votes, and if the nomination of Gabriel Tuthill for Sheriff by the Democrats, and the fact that Mr. Tuthill's daughter is the wife of Frank Hock had not made it possible for the Hocks to force the situation. The story is that a representative of the Hock interest went to see Boss Odell and told him that the Hocks had \$1,000 to spend for campaign purposes; if he would agree to name Rob Hock as Mr. Beakes's Under Sheriff the money would be spent for Odell, Beakes and the Republican ticker. If he wouldn't agree to appoint Rob. Hock the money would go for Ives, Tuthill and Tuthill's son-in-law, Frank Hock, for Under Sheriff, Odell is a practical politician and he knew that \$1,000 in the hands of the Hocks meant a good many votes, one way or another, in such a corrupt and corruptible town as Goshen. The story is that Le didn't hesitate, but pledged his word to appoint Rob Hock and Goshen was carried for Odell, Beakes and Hock, and when the time came "extraordinary pressure" was brought to bear on Sheriffelect Beakes and Rob Hock got the

It is a significant fact that in all the howling that has been done by Republicans over the appointment of Mr. Hock no one has condemned the corrupt deal that it is asserted and generally believed led up to it. That doesn't seem to make any difference to Republican politicians. They are disgusted and angry simply because Boss Hock has again proven himself smarter than his party and secured for his son a snug berth for three years.

The Trouble Over,

DAILY ARGUS. A REST FOR DR. DARWOOD.

HIS TRIAL ADJOURNED UNTIL TUES-DAY MORNING.

An Anti-Darwoodite Hissed by Members of the Ladics' Aid Society-A New sergeant-ut-Arms — Mrs. Rojcets Eleven Hours' Ordeal-Mrs II, P. Powers's Story-Interview With Mrs.

An incident showing the bitter feeling that has already been engendered among members of St. Paul's Church over the troubles in which the pastor is involved occurred, yesterday afternoon, when the members of the Ladies' Aid Society met in the lecture roum.

They usually meet in the parlor, but this was occupied by the court and went to the lecture room, but it had been set agide for the use of witnesser waiting to be called.

The ladies collected in a group under the gallery to discuss what they should do, and some of them, in tones loud enough to be heard by those present, expressed their opinion that those people had no business there. Mr. Powers, who incurred the dis-

pleasure of the supporters of Dr.

Darwood while a member of the official board for refusing to give the doctor a vote of confidence at a meeting last October, entered the room soon after the ladies did and as he walked up the alsle several bisses were plainly heard coming from the group of ladies. Mr. Powers, much to his credit, paid no attention to the hissing. Some of the ladies began to express their opinions of Mr. Powers so as to be heard all over the room, but some of the more level-headed of their number remonstrated with their sisters, but one of these said she didn't care if he did hear what she had to say or if it was published in the newspapers. Soon after this incident the ladies

decided to postpone their meeting. THE SERGEANTS-AT ARMS.

Mr. Bertholf, who was sergeant-atarms at the Royce trial, and who was not given the place, this week, because he was held partly responsible for the "leaking" that gave Mr. Clarke occasion for so many harangues, would be more than human if he did not chuckle over his successor's failure to beat the newspa-

Mr. Fay was not on duty, last night. Mr. Charles Cooper, of the Times, took his place, a combination that did not meet with the approval of the other newspaper men, but perhaps Mr. Cooper "drops the shop" when he goes to the church.

WITNESSES NOT WANTED, Several witnesses for the defense

out in an appearance at the church, last night, expecting to be called to testify. If they had remained un il wanted they would have had a weary wait. Rev. Mr. Clarke fically came afternoon, if then.

ELEVEN HOURS ON THE STAND

The cross-examination of Mrs Royce was not concluded until 6:40 o'clock, the court having delayed its usual adjournment for suppor for the purpose of finishing with the witness. She was on the stand eleven

The cross-examination was very severe but Mrs. Royce's story was not at all; shaken. On several occasions when counsel for Dr. Darwood, in to quality and who know a good Lulu Hanna, of this city, were their anxiety to help his case, pressamong the guests at the wedding of ed the witness beyond the point Mr. George Rau, of Sparrowbush, that members of the court thought and Miss Netta C. Bucanning in Port proper they interfered in her behalf. On one occasion, when Mrs. Royce was asked to explain and elaborate a particularly indelicate matter, nesday, visiting some old friends and three members of the court protestlooking over some of the attractive ed against subjecting her to such a painful ordeal. The matter was not explained for the question was not

### A BIT OF VITAL STATISTICS.

After the committee returned from supper, last evening, Mr. F. A. R. Pronk, Register of Vital Statisties of this city, was called to produce his records of Mrs. Royce's marriage. It was desired to obtain the date of marriage and her age at that time, to correct a clerical error made in copying the church records. of which Dr. Darwood's counsel sought to take advantage on the former trial.

MRS. H. P. POWERS'S STORY. Mrs. H. P. Powers was put on the stand at 8:45, last evening. Her direct examination had not been concluded when court adjourned at 9:30. Her story of Dr. Darwood's conduct

One morning in December, 1893. while she was at her father's, Mr. John W. Hill's, on Prospect avenue, Dr. Darwood rang the bell. She answered the door and showed him into the parlor. He began talking about the Christmas entertainment which was to be given for the Sunday school and said: "You ought to take the part of Religion." She was standing by a table and he rose and grasping her hand between both of his, leaned close up against her, and, squeezing her hand, continued to urge her to take the part of "Religion," assuring her that she "had a lovely christian character," and that "wife and I think more of you than of any one else.-You ought to have been a minister's wife." As soon as she recovered from her surprise, she cried. "stop," and pulled her hand away.

"What have you got that in there for?" After making some very complimentary speeches he left.

STROKED HER ARM.

Three months later, in March 1894, when Mr. and Mrs. Powers were boarding at Mrs. H. M. Elliott's on Little avenue Dr. Darwood called and inquired for Mrs. Elliott and Mr. Powers, neither of whom were at home. He, however, went in and took a seat in the parlor. Mrs. Powers seated herself on a sofa, some distance away. After talking in a desultory way for a few minutes he got up and seated himself beside Mrs. Powers on the sofa. Her dress had flowing sleeves and he began to stroke her arm, which she quickly pulled away. He inquired if she was happy with her husband, if he made a good living for her, adding that she ought to have been a minisiers wife for she would have graced a parsonage. Then, hearing a member of the family approaching, he jumped up and stood in front of her and, as a lady entered the room, said "As I was saying," as if continuing a conversation, and turned to speak to the new comer.

These are the essential parts of Mrs. Powers's story and in view of it no one will think it strange that her husbaud's sympathies are not with Dr. Darwood, nor will they see any reason way he should be denounced and abused for any help he may have rendered the prosecution in preparing for the trial.

ADJOURNED UNTIL TUESDAY.

Mrs. Powers' direct examination was resumed, this morning, after the customary wrangle on the minutes and was concluded about 11 o'clock.

Her cross-examination was then begun and had not concluded when, shortly after 1 o'clock, the court adjourned until Tuesday morning at 11 o'eloek.

MRS ROYCE AFTER THE ORDEAL,

Mrs Royce, whose terrible ordeal of two days on the witness stand closed, for the present at least. last night, is suffering, to-day, from the effects of the nervous strain, but the reaction is not as severe as it would have been had not her examination before the committee been conducted, courteously and fairly and with an apparent effort to avoid causing her any unnecessary annoyance.

She is suffering from a very severe headache, but says she feels better than she did after she had testified in her own behalf at the former trial, where there was an evident purpose to subject her to as severe an ordeal as possible.

Mrs. Royce absolutely refuses to give any information to reporters or others as to what transpired in the court room while she was on the stand. The presiding elder and committee requested her not to do so, and she respects their wishes. She will only say that she was permitted to give every particle of her testimony, and the widest latitude was given the counse! on both sides in asking questions, and only in one instance was the character of the questions asked by counsel for the defense such that she would have any thesitation in answering, and then her counsel promptly objected to the questions.

COSHEN COURT HOUSE ON FIRE

The Woodwork in the Court Room Burned-The Fire Originated from an Liectric Wire

About 2 o'clock, this morning, fire was discovered in the Court House at Goshen. The firemen were called out and soon extinguished the flames, which luckily were confined

to the court room. The fire is supposed to have originated from an electric light wire. which passes through the casing of the window in rear of the judge's bench, and by the time it was discovered the flames had spread to most of the woodwork in the room, the floor, desks and benches being badly burned.

Mrs Alexander was awakened by a noise and going to the window, saw the light reflected from the old Surrograte building and aroused her husband. By that time she smelled smoke, and the Sheriff went up stairs to investigate, and found the Judge's stand in flames.

The fire found its way up the hollow wall to the attic. The building is insured for \$5,000

and it will take it all to repair it. Judge Beattie is holding court in the Surrogate's office and Sheriff Alexander has moved to his own

COSHEN WINS THE BOWLING CONTEST | Price of MIIK Reduced.

Teams of the 24th Separate Company and the Goshen Athletic Club Bowl for the County Champtonship on Midway Park Alleys.

The new bowing alleys at Midway Park were opened, last evening, under most auspices circumstances.

Teams from the 24th Separate Company, of this city, and the Goshen Athletic Club were pitted against each other, and, to use the language of one of the numerous "mascots" which accompanied the Goshenites, There never was a minit When Middletown was in it."

The 24th boys seemed to have been stricken with "buck fever" or stage fright, for none of them were able to make a score which would at all compare with their excellent work in the practice games. The alleys are in splendid condi-

tion and the balls were all in good shape, and the only excuse, if any be necessary for the defeat, lies in the fact that the alleys are five feet longer than those in the armory, and that the balls used were of regulation size, eight and three-quarter inches in diameter, while those used in the practice games at the armory are nine inches in diameter, and according much heavier.

There were nearly 300 spectators present during the evening, Goshen sending over 100, among whom were many ladies.

A number of Middletown ladies were present and enjoyed the contest, which was a novelty to them. The sport bids fair to become very popular, and there was considerable talk of organizing a club among those who were present last night.

Sassiety Folks of New York. The committee of exhibition of the portraits of American beauties announces that it now has a sufficient supply, and it is doubtful if the Academy of Design will be big enough to hold all the portraits offered.

It happened just as I said it would. Many women waited until the last moment to see what other women had loaned their pictures, and then, afraid that they would get left, came in with a rush at the end.

Among the latest offerings which have been accepted are a portrait of Mrs. Cornelius Vanderbilt by Madrazo; a very pretty one of Miss Gertrude Vanderbilt, by Sir John Millais; Mrs. Edmund L. Baylies, by Carolus Duran; Miss Elsie de Wolfe, by Eliot Gregory, and Mrs. Charles Tracey, by Daniel Auntington.

Although received at the eleventh hour, these pictures are all certain of a place on the first line, not only by reason of the fame of the artists, but because of the social solidity of the subjects.

Two large volumes, bound in navy blue, have been prepared for George Gould, containing newspaper clippings of his recent misadventure with the Vigilant in British waters.

It was his brother Howard's thoughtfulness to provide such cheery reading, and it is said that the clippings have been selected with special reference to letting Captain George Gould down as TO Old Point Comfort [Hygela Hotel] easily as possible.

The book is called "The Vigilant's Racing Abroad, 1894."

The title is suggestive of either a social or a yachting race, but as the Goulds were successful in neither it doesn't make much difference what the book is called.—Cholly Knickerbocker in New York Recorder.

### AFTER FORTY-THREE YEARS.

Body of a Child Buried In 1851 Found to Be Unchanged In 1894.

The body of a child buried 43 years ago was uncarthed by mistake in the Springfield cemetery recently, and to the astonishment of all the features were found well preserved. The child was buried in a metallic casket, and although the glass was not removed to make a close examination the body seemed to be intact and only slightly discolored.

The coffin was reached because a footstone stood over the center of the grave instead of its proper place. The superintendent had a force excavating for a new monument, and, as they had no idea of finding a coffin, supposed when the spade struck the metal that it was a rock. The hinges of the coffin cover had rusted so it fell off, revealing the form of the child under the glass. The child, according to the inscription on the headstone, had died Aug. 24, 1851, at the age of 3 years, 8 months and 11 days, and had thus been buried more than 43 years. The face nevertheless appeared full and plump and only slightly discolored, and the eyes were still firm. The hair was undisturbed, and the appearance of the child so little altered that he could have easily been recognized by his parents.

Vhat renders the case more remarkable is that it could not have been preserved by an embalmer at that time, as embalming was only impertectly practiced 50 years ago. - Springfield Repub-

### Lunatics on a Concert Tour.

The financial difficulties in which so many of the European governments are at present involved are leading to the development of much ingenuity and resourcefulness in raising the necessary "wind," not only at headquarters in the capital, but also in the provinces. Thus from Spain we hear of the keepers of the State Lunatre asylum at Alicante, having found themselves without funds and unable to secure any remittances from Madrid, starting off with their lunaties on a concert tour, by means of which they were able to keep going the establishment intrusted to their charge. We have heard before of musical at homes and theatrical entertainments given by the inmates of insane asylums, but never of concert tours undertaken by a large company of idnots, imbeciles and raving maniaes. - New York Trib-

### The Prince and the Buby.

The German newspapers have been telling a pretty story of a prince and a baby in connection with the recent army maneuvers near Garzweiler. One afternoon, after hours of hard work, Prince Adolph Schaumburg, brother of the German empress, entered a peasant's cottage and asked the housewife if she could give him something to eat, for he was starving. The woman replied that she would willingly do so if she could find somebody to mind her baby while she looked for some eggs. The prince promptly took charge of the infant and was skillfully amusing it when several astonished officers of his staff came up. The prince, for the moment, is the most popular member of the royal family among the women of Prussia.

### Trightened to Death.

Mrs. Griffin, the wife of Dr. W. C. Griffin, was at a neighbor's house when she saw her husband's horse come by at a terrific speed, with the tattered remains of the harness and buggy hanging to him. It is supposed she imagined some member or servant of the family was in the vehicle and was the victim of a terrible accident, as she tell suddenly in a faint, gave a gasp or two and was still. Her husband was with her, and several of the physicians of the city joined him in an attempt to resuscitate he, but all to no avail. - Cartersville (Ga.) Dispatch.

PLATT'S HEALTH PRESERVER.

An Explanation Offered as to Why He Is So Interested In Political Matters. There is an impression at the Fifth

Avenue hotel that Mr. Platt is really in politics for his health, despite the assertions of his enemies to the contrary. The attaches of the hotel and the oldest boarders look upon Mr. Platt with considerable interest. It is not the abode of poetry or mysticism, and the severely practical inhabitants of the big structure have wondered for many years why it was that Mr. Platt, who has a lucrative and paying job down town, insisted upon working from 7 o'clock every night until 2 o'clock the next morning with unremitting earnestness in the field of politics. It is perfectly well known that he does not make any prouey out of it, and he does not want office himself. Now, it is claimed, the enigma has

been solved, for it is noted that as election day approaches the sparkle returns to Mr. Plait's eye, he is not as stoop shouldered as he was a few months ago by at least 10 degrees, and he moves at a far faster pace than formerly. This does not indicate that Mr. Platt is a 100 yard sprinter by any means, but he exhibits a marvelous increase of speed considering his uniform reluctance to making any movement during the off seasons. Even his manner of speaking is brisk and decisive nowadays. It is said that le invariably puts on from 8 to 15 pounds of weight during the six weeks preceding every election, and that if it were not for this excitement he would long since have collapsed. This is probably an exaggeration, but it is certain that the Republican boss decreases the number of his years, as far as appearance is concerned, whenever election day approaches. - New York

### A SMELLING CONCERT.

Suggestion For a New and Very Original Form of Public Entertainment.

Who has ever attended a smelling concert? How many persons have any idea what a smelling concert is?

The smelling concert is a new and highly original form of public entertain-

The delights of our olfactory organ have been neglected, and we have been enjoying but four-fifths of life, since there are five senses. The man to whom credit is due for this novel suggestion is young D. McFarland Moore, whose recent discoveries in electrical science are attracting general attention. He

"There is no reason why man should not reap just as bountiful a harvest of enjoyment from his sense of smell as from any other of his senses-that of hearing, for instance. In the near future the mind will be as enchanted by the prospect of a symphony in scents as by a symphony of sounds."

Mr. Moore was asked if anything like a series of smelling concerts be now in contemplation.

"Only as a scientific study," he replied. "It is true that these entertain ments are just now conducted privately as experiments. But that will soon cease to be the case, particularly as it will before long be possible for a man to invite his triends to his house and there entertain them for hours with a series notice. Address by postal or teleof exquisite and entrancing odors. Instead of musicals we shall read in the social chronicles of the day about scent symposiums." — "A Symphony of Smells" in Boston Herald.

Ninety-six Weds Seventy-four.

The oldest bride and groom in this county are Mr. and Mrs. John Shilling. Mr. Shilling is in his ninety-sixth year, while the bride, Mrs. Ruth Sears, is over 74. They both live on Sugar Loaf mountain, in Grant county, and have known each other for more than 60 years. They courted 54 years before making up their minds. The wedding took place at Zion church, and the ceremony was performed by the Rev. Mr. Randall. Before the ceremony the bride and groom were both baptized and admitted into the church. The wedding was a typical mountain affair, the attendance embracing several hundred friends and relatives, many of whom rode 40 and 50 miles on horseback over the mountains to be present at the cere-

### She Wants Her Leg.

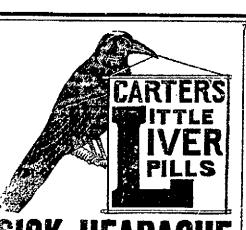

One day last March a Belgian lady fell from her carriage in Brussels and received injuries which necessitated the amputation of her leg. The surgeon who performed the operation, considering the amputated member his property, placed it on exhibition in his antercom, with an explanatory note, giving the name, age and address of its former possessor. When the lady's husband heard of this, considering such an exhibition improper, he went to the surgeon to get back the leg. The surgeon refused to give it up, but offered to remove the notice. This was not satisfactory, and the matter has become a cause celebre in the courts of Brussels. - Brussels Cor-

Espionage at Constantinople.

Strong protests come from both the foreign and native inhabitants of Constantinople against the oppressive policy of espionage recently enforced by the sultan's government, says a correspondent. The minions of the sultan even scent political conspiracy in a garden party or a ball. Sometimes such entertainments are prohibited, and at others insult is added to injury by an order that a representative of the palace be present. The latter step was adopted recently at the annual distribution of prizes at the English high school for girls.

### Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children." Dr. G. C Oscood.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

A regular meeting of the Common Council was held, last evening, present, President Dorrance and Aldermen Baldwin, Bowler, Funnell, Greene, Luddington, Mance, Reed and Sinsabaugh.

WANTS INTEREST ON THE AWARD.

Mr. Ira L. Case addressed the Council in reference to action taken in the opening of Beacon street. He said a draft for \$1,600 had been ordered and asked if it was regarded as full compensation and was informed that it was.

He said the petition was filed almost two years ago; the property | mittee. was about to be sold and when the petition was filed the sale was postthe commissioners was confirmed in 1993 by the court and the award was \$1,590 for land taken and \$100 for damages to adjoining property. This gave the city the right to possession, but during the fifteen months intervening the owner has had no use of the property and has been compelled to pay interest on the mortgage. The income from the property had been less than half what it should be and he thought he should be paid interest on the award of \$1,600 from the time the award was made, as a matter of

--- A STENOGRAPHER'S BILL.

Hon. G. O. Huise appeared in behalf of his soo, who was the stenographer for the commission in the matter referred to by Mr. Case. He rendered his bill for \$46, it but had never been paid.

-ANOTHER MAN WANTS INTEREST.

Mr. Toorpe, on his own behalf, stated that three years ago he was was awarded \$800 damages for property taken in the opening of Albert strest and for two and a half years he was kept out of all the money and was paying interest on borrowed money. There is still a balance of \$175 due and if Mr. Case is entitled to interest he thought he was also.

PURCHASED WITH PENSION MONEY.

Capt. C. B. Wood said the law exempts his property from taxation on the ground that it was purchased with pension money, yet the collector demanded that he should pay taxes. Mr. Wood produced a paper containing a decision of the courts in a case in the town of Bethel, Sullivan county.

Mr. Wood said he told the Asses-Bors when they viewed the property that it was exempt. He had given City Attorney H. W. Wiggins a copy of the decision of the Court of Appeals. He had not paid his taxes for the last three years, and they now stand on the books. He had be n informed as Commander of a Grand Army Post that he and all others ware entitled to have refunded all taxes paid on property bought with pension money. He said others in town had purchased property as he had, and had paid their taxes under protest. The matter was referred to the City Attorney.

Capt. Wood also said he was exempt from jury duty, by the possession of a firemen's certificate and D. F. Seward. honorable discharges from the Army of the United States and the National Guard, yet his name had been placed on the jury list by the assessors. He was informed that this matter should come before the Judge of the court,

We the undersigned, constituting the Law Committee of the Common Council of the city of Middletows, N. Y., would respectfully report that we have examined the annual report of the Board of Water Commissioners of this city, which was received Oct.8th, 1894, aithough the fiscal year ends March 1st and would state as follows: That in our judgment the methods hat have been employed, (and we are reliably informed are now being employed) in spending the city's monies in getting options on Treasurer W. H. Knapp asked that lands, mill sites, etc., is without precedent and entirely contrary to the city charter as provided in Section 17 of Title 12.

The annual report now in our hands shows an expenditure of at least \$800 made in this manner, and the ortions having expired the money has been simply wasted and of no bensfit whatever to the city, and has been drawn without legal authority; and it is the opinion of this committee that the Common Council should notify the Board of Water Commissioners that this practice be discontin-

SMALLPOX IN SULLIVAN COUNTY. Many Cases Already Reported-How the Disease Was spread.

Five cases of small pox are reported at Centreville and five in the vicinity of Woodbourne and Greenfield, Ulster county. The family of John Van Benschoten at Divine's Corners are down with the disease. One of the children broke out in the school house, Monday.

Several weeks ago a man in the employ of Benjamin Hasbrouck, of Greenfield, Ulster county, went to New York on business connected with the sale of milk, and while in the city went to see a man supposed to be sick with chicken-pox. He was taken sick after his return and was treated for chicken-pox. Mr. Hasbrouck was then taken sick, and he too was treated for chicken-pox, and only a few hours before his death, last Sunday, was the nature of his disease discovered and the house quarantined. Mrs. Hasbrouck is very sick with the disease, as is Miss Depuy, the teacher of the Greenfield school, who boarded with her.

It will no doubt be as large as the November excursion run by that company. Certainly New York never appeared more beautiful than at this season of the year, when all the store windows are filled with Christmas
